Community Sponsorship Program

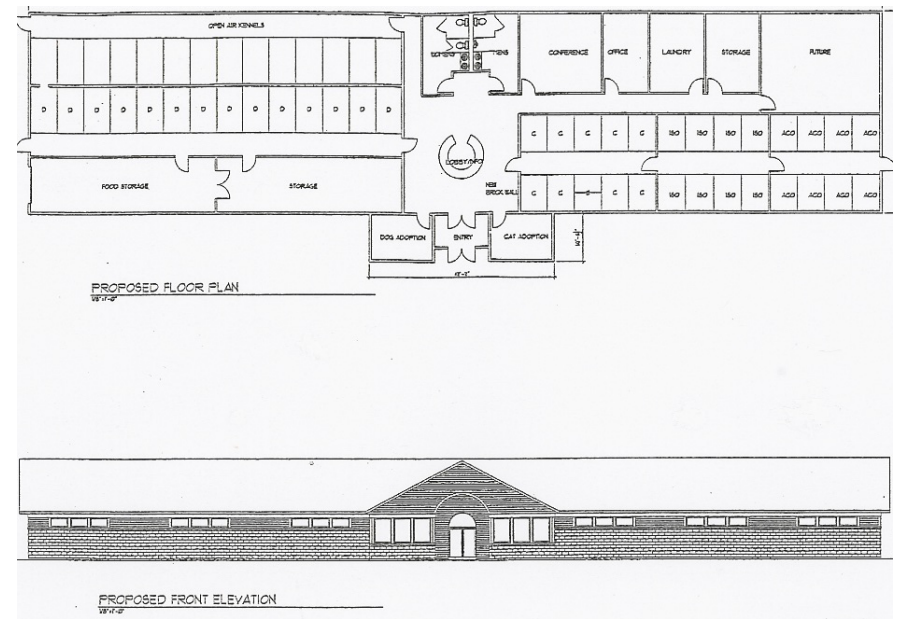

Lakeshore Humane Society's Future Adoption Center!

Since 1980, when The Lakeshore Humane Society was formed, one of the group activities was the formation of a foster home program to house animals needing shelter until a suitable home could be found. Now with the assistance and caring of some very special people, The Lakeshore Humane Society has been awarded the opportunity of building an Adoption Center to be located on Chestnut Street, Dunkirk, New York.

The building itself, which is represented in this brochure, as an architect's rendition of what it will look like when completed, consists of 14 dog kennels, 10 cat pens, 8 isolation units for dogs and cats and facilities for local Animal Control Officers to house stray dogs and cats in need of temporary shelter.

We need your help to obtain our goal of reaching enough funds to construct this needed building for our abandoned and lost animal companions! Your generosity will help the community, as this Adoption Center will benefit the animals in our local area.

Thank you for your kindness and compassion for the animals.
